

WS

- HIGH SPEED SPOT WELDING -

WS EQUIPMENT

WS 5100s

Microwelding equipment WS 5100s – power 5100 amp – 12 imp/sec, including :

- WS 5100S generator
- Uncooled microwelding Torch 35² - Length 1,7m
- Uncooled ground cable 35² - Length 1.7m
- Foot pedal control - Length 2m
- Set of 5 electrodes
- Cooper ground plate

WS 7000s

Microwelding equipment WS 7000s – power 7000 amp – 16 imp/sec, including :

- WS 7000S generator
- Microwelding Torch 75² with air cooling system - Length 1,7m
- Ground cable 75² with air cooling system - Length 1.7m
- Foot pedal control - Length 2m
- Set of 5 electrodes
- Cooper ground plate

WS 10 000

Microwelding equipment WS 10 000 – power 10 000 amp – 25 imp/sec, including :

- WS 10 000 generator
- Microwelding Torch 75² with air cooling system - Length 1,7m
- Ground cable 75² with air cooling system - Length 1.7m
- Foot pedal control - Length 2m
- Set of 5 electrodes
- Cooper ground plate

WS 10 000s

Microwelding equipment WS 10 000s – power 10 000 amp – 50 imp/sec, including :

- WS 10 000s generator
 - Microwelding Torch 75² with air cooling system - Length 1,7m
 - Ground cable 75² with air cooling system - Length 1.7m
 - Foot pedal control - Length 2m
 - Set of 5 electrodes
 - Cooper ground plate
